

LYRA MANAGEABLE & COMPACT

IN DEMAND DUE TO ITS SIMPLICITY

A remote small enough to fit in your pants- or shirtpocket. With its ergonomic design the Lyra is the perfect remote for simple applications, such as a winch, pump, gate or lift. Lyra is a very reliable, no-nonsense remote control making it a very practical solution for the customer.

When combined with the Hydrus receiver this is the ideal set to install on existing machinery or vehicles. Thanks to the 1.5 meter long pre-installed cable on the receiver, installation can be done easily and quickly.

Lyra remote is a 2-channel remote and is moisture- and dust resistant (IP 65). The receiver is solid cast and fit with a flexible antenna that is guaranteed to be 100% watertight.

- **Extremely low power consumption**
- **Compact and ergonomic design**
- **User-friendly and reliable**
- **Water and dirt-resistant (IP65)**
- **Fast response time < 0.1 s**
- **ECE certified (E4)**

LYRA MANAGEABLE & COMPACT**TECHNICAL SPECIFICATIONS**

Number of functions	2
Battery type	9V battery
Degree of protection	IP65
Certification	CE, RED, EMC, LVD / E4 (automotive)
Dimensions	93 x 60 x 30 mm
Weight	148 gram
Temperature range	-20°C / +60°C
Communication mode	Simplex
Frequency	868MHz (additional frequencies are possible)
Modulation	Broadband
Charging time	-
Battery life	Approx. 2 years
Reaction time	< 0.1 second
Maximum power	10 dBm
