

## MUSCA 2S COMPACT & EFFICIENT

### COMPACT, SIMPLE AND EFFICIENT

The latest Tyro remote control, the Musca 2S, is ideal for remote control of simple applications in transport and industry.

This robust radio remote control is compact, waterproof and easy to use. The modern and ergonomic design with rubber grip and shielding in combination with the practical key cord guarantees optimum operating convenience in harsh environments.

The backlighting of the keyboard is automatically switched on in the dark, ensuring optimal use during the day and night.

The Musca 2S is designed for frequent and intensive use, even in exceptional circumstances. Thanks to the high quality of the industrial keyboard, the transmitter is resistant to moisture and dirt (IP67).

The Musca 2S is easy to clean and the batteries are easy to replace.

- **Waterproof casing (IP67)**
- **Including backlight and 2 indication LED's for battery and transmission**
- **Ergonomic robust design with rubber grip**
- **Widely applicable and self-configurable system**
- **Fast response time < 0.1 sec and low power consumption**
- **Sound with every key operation and spacious buttons for optimum operation**
- **Multiple transmitters per receiver possible**
- **Designed and made for intensive use**

## MUSCA 2S COMPACT & EFFICIENT

### TECHNICAL SPECIFICATIONS

Number of functions	1 - 6
Battery type	2 x AA Alkaline (not chargeable)
Degree of protection	IP67
Certification	CE, RED, EMC, LVD / E4 (automotive)
Dimensions	116 x 61 x 27 mm
Weight	148 gram
Temperature range	-20°C / +60°C
Communication mode	Simplex
Frequency	868MHz
Modulation	Broadband
Charging time	-
Battery life	Approx. 2 years
Reaction time	< 0.1 second
Maximum power	10 dBm
